

GAP Compliant Contractors List - 12/12/18

IMPORTANT NOTE: You MUST obtain a copy of the CAV of all contractors you use from the Contractor directly. This list does not replace needing to have a copy of the CAV.

Please note the following when using this list:

- The list is updated weekly. Therefore there may be a delay for recently audited contractors who may not appear on the list. If a contractor you are looking for is not listed, please check directly with the contractor as to whether or not they have a current CAV or send an email to the address below.
- The CAV expiry date must be checked to determine it is current. To be valid the expiry date must fall after the contractor completes any work on the orchard.
- A copy of the CAV should be obtained from the contractor themselves. Zespri does not provide copies of CAVs.
- Vine maintenance contractors are now being added to the list but only need to demonstrate that they have booked in for an audit with an accredited auditor, until mid August when a CAV will be required. Compliant Harvest contractors will automatically be compliant for vine maintenance.
- This list indicates successful completion of a GAP/GRASP audit only.
- GRASP assessments where relevant are completed at the same time as the GAP audit and hence the CAV covers both GAP and GRASP.
- It is the Contractors responsibility to ensure they are meeting all of their legal obligations including health and safety and labour compliance.
- Sub-contractors are required to hold their own CAV. You must check with your contractors if they are using any sub-contractors to complete work on your orchard(s) and ensure you check the CAV for the sub-contractor(s) also.

If you cannot find the contractor(s) you are looking for on this list or you require further information please send a detailed email to compliance.mail@zespri.com

H = Harvest Contractor (incl.Vine Maintenance) S = Spray Contractor F = Fertiliser Contractor

V = Vine Maintenance Contractor
